

# Early Federal Duck Stamp Prints

Early Black and White Duck Stamp Prints have been popular since they were first issued in 1934. The original issue price was \$15 for many of these prints. Most were issued in relatively small quantities (some as few as 100, many around 250 and as high as 750). Almost all of the early print have been previously framed. Many have been trimmed and most have been toned. An inventory of the early prints is very difficult to maintain. Since every early print needs to be evaluated for condition, margins, tape on the back, toning, age spots, and the readability of artist's signature, prices can fluctuate greatly. The prices that are listed below are for prints that are in above average condition and are not framed. They will have very minor or no toning. In most cases, they will have been professionally restored to look almost as new as issued. The margins will be at least 1" on all four sides. In many cases, the margins will be quite a bit larger. Prints that are heavily toned, have age spots, a margin of less than 1", tape stains are dry mounted, or have other problems will sell for much less than the prices listed below. At the time of publication, we have over forty early duck stamp prints in stock. Most are in excellent condition. If you call early, you may be able to pick up one of these desirable prints. Due to the quick turnover and the unavailability of replacements, it is impossible to maintain an inventory. I recommend that you call for availability. If what you are looking for is not available, you can provide me with your want-list. You will be notified when a print becomes available from your list and quoted a price at that time. Lay-A-Ways available. Stamps not included.

# Federal Duck Stamp Prints at Attractive Prices!

Duck Stamp Prints on this and subsequent pages are in stock at time of publication. Prices are for mint in folio unless stated otherwise. Many times, framed prints are available for much less than the never framed prices. If the edition you are looking for is not listed, please give a call as new purchases are being made frequently. Mint stamps are included on all prints from 1971 on. The "list" price is considerably higher than my price and is not listed to avoid confusion as no one sells at list price anymore.
