Wilson Roulette Blocks

481, 482, 532
This philatelic variety was created in October, 1929 when a large accumulation of mini imperforate sheets, left with a Pittsburgh bank were taken up by the bank on an unpaid loan. In order to get their value, they were privately rouletted for postage use, and after a portion of the lot were thus used, they came to philatelic attention. The greater portion were lost to philately when used on

non-philatelic mail, and it was only through the good fortune of their being noticed by Eli T. Parker, a stamp dealer of Bethlehem PA, that they are today known. Each stamp is authenticated on the back by Herman Herst, Jr.. Blocks are LH and better centered than others I have seen. There won't be a spot in your album for these, but there seldom is for specialized material. Only one lot.
