

FARLEY SPECIAL PRINTING SHEETS

The Farley sheets were issued in 1935 in full uncut sheets. These have been kept rolled up for 75 years. There is some edge wear on some of the sheets when the owners have removed them to look them over. None of the edge wear affects any of the stamps. They look great framed or keep them rolled up yourself. More sheets are being broken up every year into position pieces. Complete sheets are becoming more difficult to find every year. We will mail to you protected in a tube.
